## Introduction:

This is our project in which we make a website for **Pure Drop Organic Hair Oil**, a homemade product (oil). The website shows our products, shares contact information, everything need for user and lets users place orders easily. We built it using **HTML, CSS, and a basic JavaScript** to make it clean, simple, and easy to use. Our main goal was to create a **friendly layout** with smooth navigation and clear pages so visitors can quickly find the information they need.

## Website Structure:

The Following are the structure of our website.

### 1. Home Page

Home Page include the following;

- Introduction
- Group member names
- Pictures
- Navigation menu to other pages
- Footer

### 2. Our Guarantee Page

Our Guarantee page include a table which show **Features** and **Guarantee** of our product also a **back** button.

### 3. Gallery Page

Gallery page include all pictures and videos about the product also a **back** button.

### 4. Ingredients Page

Ingredients page include a section show all Ingredients of this product and one picture of this oil and also a **back** button.

## 5. How to use Page

This page include a section show that how to use this oil correctly and also a **back** button.

## 6. About Us Page

This page include a section which tell about the owner of the product and the member who make this website and also a **back** button.

## 7. Contact Us Page

This page include a section which include all contact information (i.e email, phone no/what'sapp and also social media account) and also a **back** button.

## 8. Order Page

This page include a form which include the following;

### ➤ User Information

- Name
- Gender
- Address
- Email
- Postal Code

### ➤ Payment Information

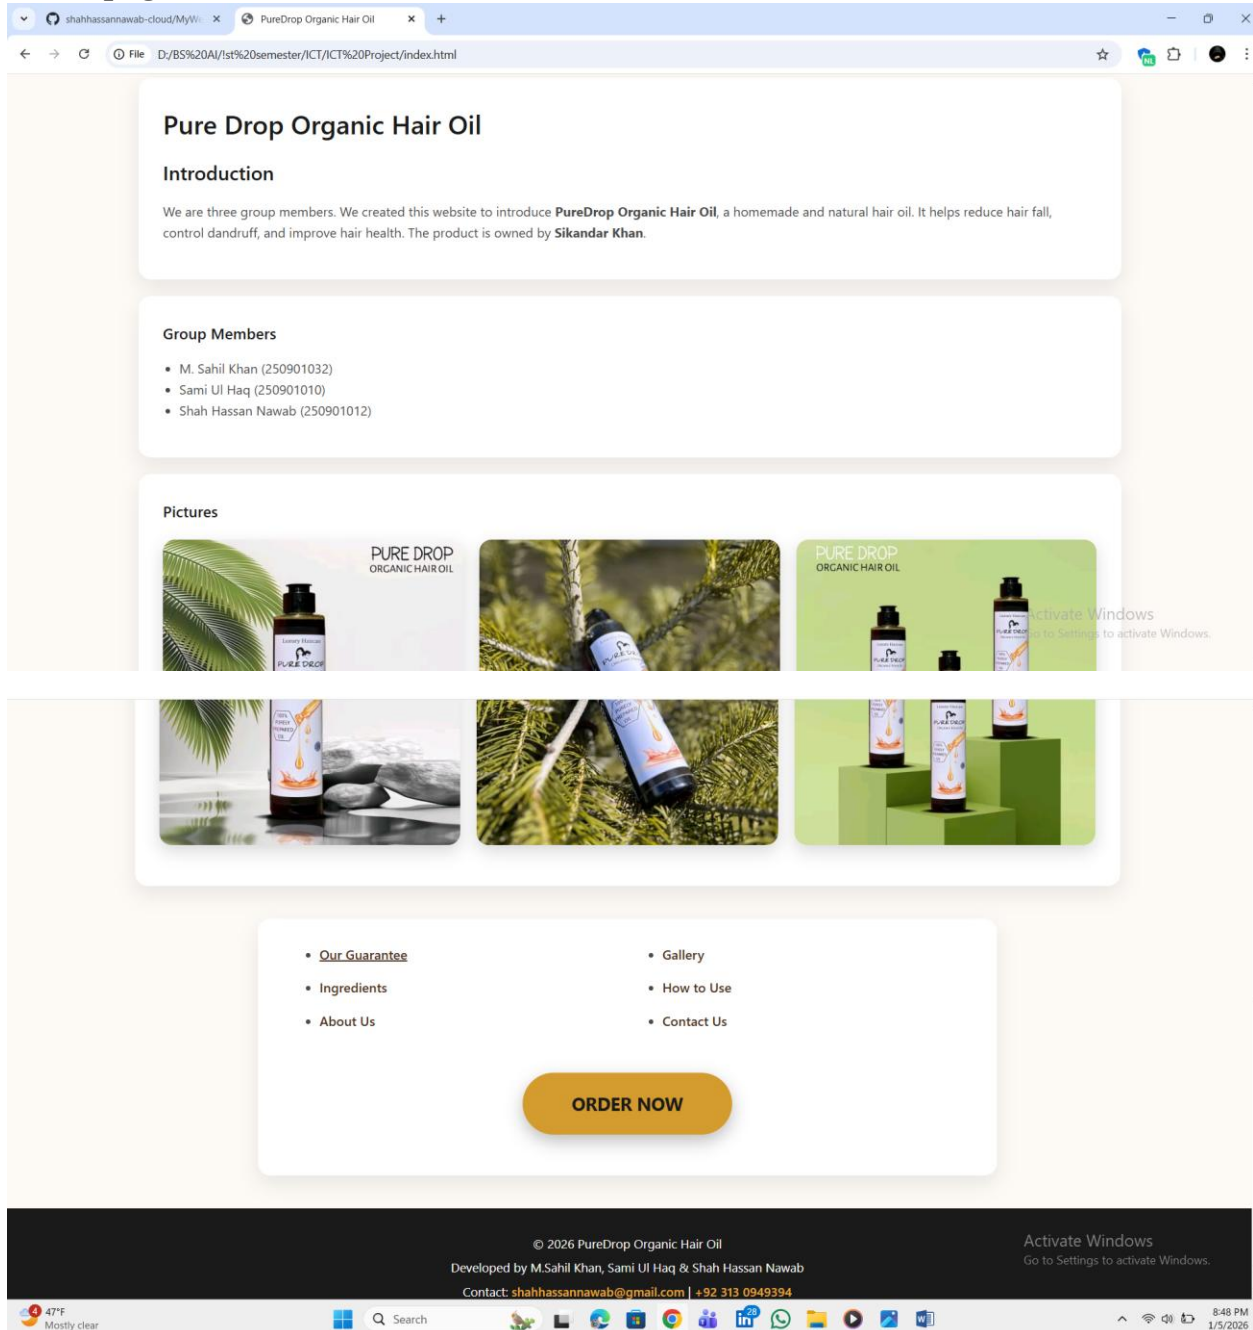

- Card Type
- Card Number
- Expiration Date
- CVV

### ➤ PAY NOW (Button)

## Live website link

<https://shahhassannawab-cloud.github.io/MyWebsiteProject/>

## Conclusion:

This project helped our group understand basic web development concepts, GitHub collaboration, and website deployment. We successfully created a fully functional website that meets all project requirements.
